

The Hatching Experience

with Your Healing Circle

Hands on learning
experience for people
of all ages

A GROUP EXPERIENCE

WHAT IS INCLUDED...

Entire Equipment + Animal Cuddles

We provide drop off & pick up of equipment + chicks. We lend you 1 incubator, candler, egg rotator, a heating pad, chick feeders & feed, and 12 fertilized eggs. After hatching, you will get copious amounts of cuteness & cuddles.

3 Live Educational Presentations

Includes 1 (optional) in-person presentation, for Day 0 of the hatching schedule. Day 11 & Day 18 will be done via zoom at the pre-determined scheduled date/time (see website for all the details & important dates). OR additional in-person presentations can be arranged, at an additional cost (see below), at a collaborative determined times.

Step-by-step guide & bonus resources

1 week before the program starts you will receive access to the entire online program, where all the detailed information on how to hatch your chickens is provided! Additionally, you will be given access to plenty of resources if you wish to further your education about chickens with your students.

Program Details + Your commitment

Cost: \$250 | The program runs for a total of 27 days

Additional optional costs for in-person presentations: \$50 for 1 or \$75 for both

NOTE: Please read & take note of "The Commitment for Groups" on our website page:

What Schools are saying

I wanted to take a moment to express my deepest gratitude for the wonderful chick hatching project that you organized for our school. The experience has been truly remarkable, leaving a lasting impact on our students and creating cherished memories for years to come.

Not only did the chick hatching project provide an invaluable educational experience, but it also helped instill a sense of responsibility and empathy among our students. They have learned to care for these delicate creatures, understanding the importance of nurturing and protecting life. Your project has sparked a genuine interest in biology and animal welfare, encouraging our students to explore these areas further.

Beyond the educational benefits, the chick hatching project has brought immense joy and excitement to our school community. Seeing the joy on the faces of our students as they witnessed the first cracks in the eggs and the subsequent emergence of fluffy little chicks was truly priceless. The project has created a sense of togetherness, as students, teachers, and parents alike were captivated by the journey of the chicks from eggs to lively beings.

We look forward to more incredible initiatives and projects with you in the future!

~ Katrina CECCE

What Families are saying

There is a persuasive amount of evidence of the benefits & therapeutic value of spending time with animals. (Richard Louv, 2008)

"It's a great learning experience for youth and adults alike. The hatching of course is the best part, but the journey to get there was fun, interactive, educational and intriguing. Thanks again Stef, we highly recommend this program!"

Valerie

"Thank you! This experience was amazing! It truly was healing, my children, especially my teens found peace and healing with this little chicks. I'm very happy!"

Jessica

"This experience was beyond my expectations! Our whole family participated from ages 3, to 15 (and adults!). (...) My children watched a chick hatch and my teen had tears in her eyes. Our whole family worked together and shared this experience. (...) An experience we will never forget."

Angie

"This was one of the best learning experiences our family has ever participated in. Stef was wonderfully attentive and kind. She answered questions promptly and listened attentively to anything my children wanted to share. Her love for chickens was contagious and my children now want to own chickens of their own. THANK YOU for a most wonderful adventure."

Leanne
